

## MINISTRY OF HEALTH PROMOTION

Health promotion is the art and science of enabling people and communities to build a lifetime of good health for all. The Ministry of Health Promotion works with other ministries, other levels of government and community partners to develop and implement strategies and policies that support a culture of healthy and active living, thereby enhancing the sustainability of the province's health care system. These programs are aimed at preventing chronic disease through initiatives and public education that support healthy eating, physical activity, and smoking prevention/cessation. The Ministry is also responsible for supporting amateur sport participation and performance excellence. Community-based programming lies at the heart of the Ministry's efforts to positively affect the determinants of health.
