

## INTRODUCTION

The 2006-07 Estimates set out details of the operating and capital spending requirements of ministries for the year commencing April 1, 2006 and constitute the Government's formal request to the Legislature for approval of the expenditures involved. Once approved by the Legislature in the *Supply Act*, the Estimates become the legal spending authority for each ministry.

The services or programs which ministries are responsible for delivering are each identified by a unique vote number within the Estimates. Votes in turn are sub-divided into items in order to distinguish between their different functions. This vote/item structure permits the Legislature to be more specific in appropriating funds to particular services. Within each item, expenditures are shown by standard account, i.e. salaries and wages, employee benefits, transportation and communication, services, transfer payments etc. (see explanatory notes on page vi).

For comparative purposes, Estimates for the previous year are provided on ministry summary and program summary pages. These amounts are restated to provide comparability where functional reorganizations and transfers, Supplementary Estimates or accounting changes have occurred.

**Estimates for all legislative offices are presented on the modified cash basis of accounting.**

Where it is necessary to seek the Legislature's approval for additional expenditures after the tabling of the Main Estimates, Supplementary Estimates may be tabled.
