

Ontario Demographic Quarterly

Highlights of third quarter, 2018

Population growth

Ontario's population reached 14,411,424 on October 1, 2018, with an increase of 88,667 people during the third quarter of 2018. This compares to an increase of 82,361 in the same quarter of the previous year.

Population growth, Ontario, Q3 2018

Thousands

Population, July 1, 2018	14,322.8
Plus Births	39.3
Minus Deaths	25.0
Plus Immigrants	33.2
Minus Emigrants*	7.0
Plus Net Change in Non-Permanent Residents	40.5
Plus Interprovincial Arrivals	24.7
Minus Interprovincial Departures	17.1
Population, October 1, 2018	14,411.4

* Emigrants plus net change in temporary emigrants minus returning Canadians.
Source: Statistics Canada.

Births and deaths

There were 39,334 births and 25,049 deaths during the third quarter of 2018, representing increases of 2.1% and 3.7% respectively from the same quarter of 2017.

Natural increase (births minus deaths) was 14,285 in the quarter, down slightly from 14,379 in the same quarter of 2017.

International migration

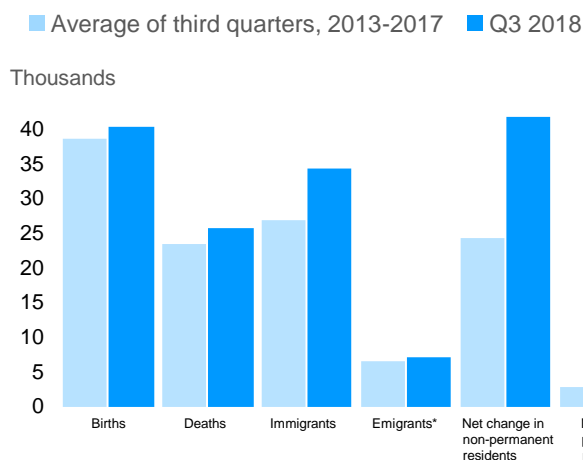

Immigration to Ontario was 33,237 in the third quarter of 2018, up from 28,050 in the same quarter of the previous year. Ontario received 40.4% of all immigrants to Canada in the quarter, up from 40.0% in the same quarter of 2017. Over the last 12 months, Ontario received 137,604 immigrants, up from 101,700 during the previous year.

There were 6,987 emigrants from Ontario in the quarter, similar to the same quarter of the previous year. Ontario accounted for 46.0% of all emigration from Canada in the quarter.

The number of non-permanent residents in Ontario (NPRs – i.e. foreign students, visa workers, refugee claimants) increased by 40,495 to 541,222 in the third quarter.

In summary, there was a net international migration gain of 66,745 in the third quarter, up from a net gain of 60,795 in the same quarter of 2017.

Components of population growth, Q3 2018 and average for 2013-2017

* Includes emigrants plus net change in temporary emigrants minus returning Canadians.

Interprovincial migration

In the third quarter of 2018, Ontario had a net inflow of 7,637 people from other provinces and territories compared to a net gain of 7,187 people in the same quarter of 2017. Ontario experienced net gains in its exchanges with all other provinces and territories, except Nova Scotia (-242). The largest gains came from Quebec (2,601) and Manitoba (1,479). Over the last 12 months, Ontario's total net interprovincial migration gain was 18,336, compared to a net gain of 12,907 during the previous year.

Year-over-year growth

Over the last 12 months, Ontario's population grew by 257,618 or 1.8%, higher than growth of 208,282 during the previous year. Among the provinces, Ontario had the second fastest population growth rate, after Prince Edward Island (2.2%). Canada's population grew at a rate of 1.4% over the period.

1. Statistics Canada's population estimates for total population and components of growth are based on the 2016 Census (shaded areas). All other estimates are based on the 2011 Census.
2. Except for Canada, projections are produced by the Ontario Ministry of Finance (Spring 2018). Projections for Canada are from Statistics Canada (based on 2011 Census).
3. Total dependency ratio is the ratio of the population aged 0-19 and 65+ to the population aged 20-64.
4. Total Fertility Rates and life expectancy estimates are for calendar year, and projections are for census year. Life expectancy estimates represent three-year averages (e.g., 2006 reported life expectancy corresponds to the average recorded over 2005-2007).
5. Households are Census data.
6. In the "Components of Change" table, flows are for the 12-month period July 1 to June 30. Net international migration is calculated as the net balance of immigrants, net emigrants and net non-permanent residents (NPRs). Components may not add up due to existence of residuals.

Note: All population figures are for July 1st.
